

As if the Victorian Governments proposal to ease any native forest logging in Victoria by 2030 wasn't enough, the "woke" inner Melbourne city councils have rammed through a resolution at the Municipal Assoc of Vic conference calling for native forest logging to be phased out well before 2030.

- 4.be Friendly
- 5.be Tolerant
- 6.be Progressive**
- 7.be Industrious
- 8.be Ethical
- 9.be Loyal

EDITORIAL - Be Progressive

Meaning "To of on our and advocate progress, change, improvement and reform" – an attitude we should all embrace but in a fully considered manner. We all want progressive governance from our political and industry leaders but that should not include un-costed promises or "woke" commitments to appease an undemocratic minority!

On a personal note – In 1632 while the black plague ravaged Europe, a small German town – Oberammergau – of less than 1000 people had lost about 90 persons and by way praying for deliverance put on a passion play depicting the crucifixion of Jesus in which all of the township participated and promised to continue to do so if the township was spared. (It was recorded that there were no further deaths after the play was enacted).

This passion play, which involves only township members has been put on every 10 years since this (except 1770 & 1940).

The 2020 event was delayed for 2 years until 2022, with the next occurrence in 2030.

My wife and I were fortunate enough to get there by way of a river cruise that included tickets to the Oberammergau passion play. It was the highlight of the trip – an exceptionally powerful and professional performance that I could not more highly recommend. One for everyone's bucket list.

THOUGHTS FOR THE DAY - Just to Ponder On

When ever my wife uses the phrase: "I was thinking". That means I have to move, build, paint or buy something.

Remember when we used to line up at a fair and pay to see a fat tattooed lady? Now they're everywhere.

Marriage is a relationship where one person is always right and the other person is the husband.

Marriage is not about a beautiful wedding, fancy homes, cute kids, nice cars and white picket fences. Marriage is hospital stays, working long hours, fighting through struggles, paying bills, and keeping the faith and staying together through it all.

We lost our true identity when more value was placed on suits and a signature rather than overalls and a handshake.

My wife is singing in the house. I'm sitting outside so the neighbours don't think I'm hitting her.

I'm thinking of taking the wine box back to complain. It said once opened it would last 6 weeks, it only lasted me 3 hours.

Women have only 2 problems.

1. Nothing to wear
2. No room for all their clothes.

PONTIFICATIONS -

Our government is claiming that wind and solar will bring down the cost of electricity. The cost in Britain and Germany who embraced Wind & Solar decades ago had risen 60-100% BEFORE the war in Ukraine.

In Italy the hotels cannot get the air-conditioners to cool less than 27°C or heat over 18°C by legislation to save on energy.

CHIT CHAT -

Dale & Lindy off on a cruise to Bali on 26th October.

It's a sign of changing times when one of our members is trading his Holden for a electric hybrid!

COOKING TIP – We all know that in cooking "butter is better" and if correctly applied will give a superior tasting "and healthier" result than any alternative refined products.

A few tips:

Wait for butter to stop foaming before sautéing.

Why Do It: Sautéing is best done in hot fat. When foaming subsides, its an easy visual cue that the melted butter hot enough for cooking. More specially all the water in the butter continues heating and finally smokes at 250 to 300 degrees.

Slip butter under the skin of chicken.

Why Do It: Notoriously dry and chalky, roast chicken breasts can be transformed with softened – butter. Two tablespoons of unsalted butter mixed with ½ teaspoon salt spread underneath the skin of a whole breast before roasting.

Add butter before dairy in mashed potatoes.

Why Do It: If the dairy is stirred into the hot cooked potatoes before the butter, the water in the dairy will combine with the potatoes' starch, making them gummy, melted butter is added first to potatoes.

Add butter bits to uncooked eggs for omelettes.

Why Do It: Whisking a tablespoon of cold, diced butter into the eggs before cooking is the secret to a soft, creamy omelette. Without butter, the proteins in egg whites form tight, cross-linked bonds, yielding a dense, rubbery version of the French classic. But with our method, the eggs cook as the butter melts and disperses, coating the proteins and stopping them from linking.
